

Center for Architecture Design Educator

The Center for Architecture is seeking Design Educators to teach in our K – 12 architecture and design education programs. Programs include youth, family and school workshops at the Center for Architecture in Greenwich Village and customized multi-session residency programs in schools and community sites throughout the city. Our programs use hands-on, project-based design activities to enrich classroom studies and build students' understanding and appreciation of the built environment.

Design Educators are hired and paid on a per program basis. Candidates must be willing to travel to program sites throughout the city and to collaborate with partner teachers to develop age-appropriate, sequential lessons that integrate architecture and design into classroom studies.

Qualifications:

- Bachelors or Masters degree in architecture, design, engineering and/or arts education;
- Minimum two years experience leading hands-on art/design projects with youth groups in a school, museum or community setting;
- Excellent classroom management skills and ability to work with students of varying abilities;
- Familiarity with NY State Blueprint for Teaching and Learning in the Arts and Common Core Standards.

Candidates will be asked to lead a demonstration lesson on a topic provided by the Center for Architecture.

All Design Educators accepted for employment must attend an orientation session in September and be fingerprinted by the Department of Education before taking on a program in a New York City public school. CFAF will reimburse the fingerprinting fee.

To Apply:

Interested candidates should submit:

- cover letter
- résumé
- two sample lesson plans you have developed and taught on an architecture/design topic

Email materials to Catherine Teegarden, Director of Education at cteedgarden@cfafoundation.org. Indicate "Design Educator" in the subject of your email and include the cover letter in the body of the email. No phone calls please.

The Center for Architecture is an Equal Opportunity Employer.

If you don't meet all the qualifications for a CFAF Design Educator, but are interested in working towards this and developing your skills:
